WHY THIS

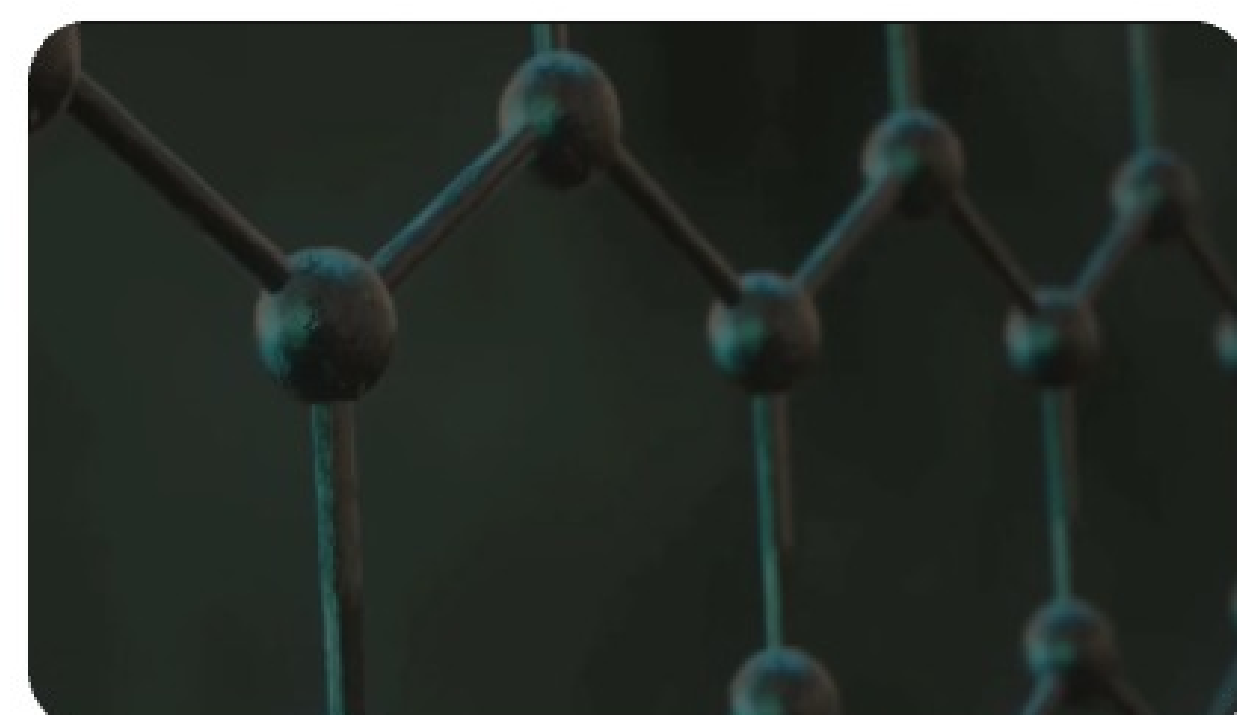

A garment that listens.

01

Underwear

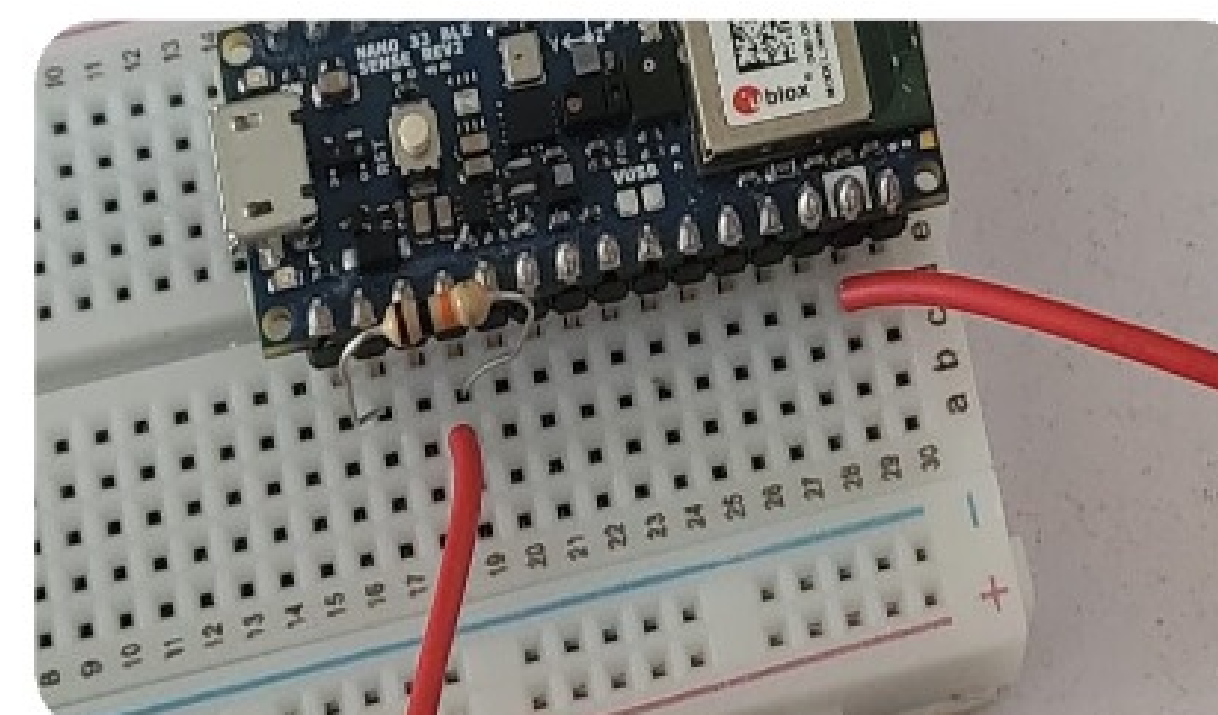

We Create Underwear

02

IP Fabric

Using Conductive Fabrics.

03

Microcontroller

Our MVP Uses Aurdino
Micro Controller

04

Insight layer

The Product - Platform IP
Is Our Moat, and The
Hardest To Replicate.

Signal → Memory → Insight

THE OPPORTUNITY

A New Category of Wearables.

\$97 Billion Projected Global Femtech Market Growth By 2030-

NO COMPANY HAS MARRIED NON-INVASIVE, SENSING FABRIC WITH A GOAL-ORIENTED WOMEN'S PLATFORM.

ROADMAP

Path to scale.

1

NOW

Prototype Validation

Moving from TRL-3 to 4.
Fundraising pre-seed to
access labs for validating
CRL-4 - 5

2

Q1 2027

Pilot Waitlist Live

Wait list open. Actively
growing early adopters

3

Q3 2027

Commercial Launch

First sales to 50 early
adopters

4

2028

Platform Expansion

Moving to TRL-5 and CRL-5

We've Validated the Demand. Now We Build It.

01

PRE-SEED ·
INVESTMENT

£75,000

The future of health monitoring is not devices. It is *fabric*.

KLPS' new category of wearable technology.
Designed for health intelligence.

*Every woman wearing an Oura Ring or a WHOOP Strap
already buy into 'insight' technology!
Just in the wrong place.
The richest data zone is NOT her wrist. It never was.*

The Question is Who Builds It? **I AM**

**Backed by Research. Powered by Breakthrough Materials.
Validated by Women. 93% of Women Surveyed Would Pay for
Personalised Insights. KLPS is Building the Future of Women's
Health. This is Your Moment to be Part of it.**
